Year	2023	Category	Fishing Boats
Hull Style	Single	Hull Type	Fibreglass
Power Type	Power	Stock Number	
Condition	New	State	New South Wales
Suburb	ALEXANDRIA	Engine Make	

Description

The Arvor 705 Sportsfish is built for anglers who demand performance, practicality, and protection in all weather conditions. Bigger, bolder, and more feature-packed than its smaller siblings, the 705 is a true offshore-ready fishing platform that also offers the comfort and versatility needed for family cruising.

At 6.7 metres in length with a wide beam, the 705 Sportsfish delivers exceptional deck space and fishing functionality. The large, self-draining cockpit features fold-away seating, multiple rod holders, a live bait tank, raw water washdown, and dedicated tackle storage – all designed to keep your gear accessible and your deck clear when the action heats up. A wide starboard side deck with grab rails makes moving around the boat safe and easy, even in rougher conditions.

The enclosed wheelhouse keeps you dry and protected, with excellent all-round visibility and sliding side doors for quick access to the deck. The helm is well laid out with space for dual screens, full engine instrumentation, and optional electronics packages. Whether you're trolling offshore or heading to your favourite reef, the 705's deep-V hull and up to 225hp of outboard power deliver a smooth, confident ride.

Inside, there's a forward berth suitable for overnight stays, an enclosed marine toilet, and practical storage throughout. A convertible dinette and optional fridge or sink make the cabin a useful retreat when the weather turns or you're spending longer on the water.

From family fishing trips to serious offshore sessions, the Arvor 705 Sportsfish offers the perfect blend of rugged durability, safety, and style. Towable, versatile, and easy to handle, it's built for Australian conditions and ready for action.
