### Description

The Arvor 755 Weekender is a sporty and spacious model designed for up to 9 people. You can take it out to sea, explore your local rivers or head out to your favourite fishing spot. With a single outboard engine up to 300hp, you will have all the power you need. SAFETY

As a boat designed for CE offshore rating, the Arvor 755 Weekender has a variety of features designed to keep you and your loved ones safe. Enjoy a 360 degree view from the cabin and a dual-engine option to gain full control over your surroundings. The extra side sliding door in the cabin, large access from cockpit to bow and walk through transom coupled with swim platforms with integrated swim ladder provide safe circulation around the entire boat and water access. COMFORT

Whether you're on the move or relaxing, the 755 Weekender is ready to go. The sliding cockpit bench seat can be converted to a large dining area or a sun lounge. Can't get enough of the sun? There is a second sun lounge on the bow. Optional heating is available to maintain the desired temperature. And the boat's large galley with sink & optional refrigerator will help you prepare the perfect dinner on the water. DESIGN

We've designed the 755 with the combination of aesthetics, quality and class leading space to provide lasting value and the look and feel of a much larger boat. The optional pull-out shower compartment and sea water toilet are tastefully arranged while skylights provide plenty of natural light in the private master cabin and private aft cabin. VERSATILITY

Every journey is different. That's why we've made sure you can reconfigure your set-up to match any occasion. The convertible, four position dinette uses opposing and fold away seating that can be changed into a U-lounge for entertaining. It also quickly changes into forward facing seating, or becomes an extra third berth when you're done for the day.
