Power Type	Power	Stock Number	
Condition	New	State	New South Wales
Suburb	ALEXANDRIA	Engine Make	

Description

SERIOUS FISHING AND FAMILY FUN.

The new generation of our Sportsfish models.

The curved hull portrays an aesthetically pleasing, sporty design. Centered around fishing, the Arvor 805 Sportsfish has features focused on a complete on-water experience such as an oxygenated fish locker to keep your bait fresh and your catch fresher.

Reach your fishing spot faster with Mercury single and twin-engine options up to 350hp, and up to 9 people aboard.

For a premium experience, an Explorer version elevates your time on the water with more style and deluxe fishing features.

EXCELLENT FISHING PERFORMANCE

The 805 Sportsfish is geared for the serious angler, and it shows with the gear on board. Keep your daily limit fresh in the massive oxygenated fish locker with pump-out, and hose down the deck with lake or sea water after a busy day catching and cleaning with an integrated washdown unit. Keep your eyelets intact and your line untangled with dedicated rod storage in the cockpit and cabin. And with the two helm positions, you can put your boat directly over the sonar marks or navigate tight spots near other boats.

GREAT CABIN COMFORT, SPACE & STORAGE

A quick afternoon on the lake or an overnigher on the sea. The salon table and adjustable seating in the 805 Sportsfish is a great place to unwind or seek shelter. The galley has all you need to cook a quick meal or keep beverages frosty. Two people can relax in comfort inside the berth and additional privacy is afforded with an enclosed head with a flushing marine toilet. The deck is wide open for fishing, and integrated seats starboard and aft fold out of the freeboard when you need to take a load off, and you can set up a cockpit table for a bite to eat.

SECURE FEELING ABOARD

Enjoy dawn-to-dusk fishing worry-free with high freeboards that keep you on the right side of the rail. Lock your deck shoes under the toe rail as you reel in The Big One. Confidently cruise to your secret spot with up to 350L fuel capacity. Stay connected both shoreside and to other vessels with Simrad RS20 VHF while you safely navigate hazards with optional Simrad 3G Radar.
